Youth Matters

- Are you 16 to 21 and interested in celebrating the diversity of your community?
- Do you want your voice to be heard?
- Have you ever wanted the opportunity for your voice to help combat extremism?
- Are you interested in learning about different religions and cultures?
- Would you like to contribute to the SEEIFA multi-faith website?
- Have you ever thought about organising a community event?

SEEIFA is creating a youth forum for you!

Starting this Autumn, Youth Matters will aim to provide you with a regular forum/discussion group made up of members of different faith communities. Together you will create an interfaith project (A Sense of Faith) highlighting the different religions in the local area.

You will also have an opportunity to join SEEIFA's main steering group (which is made up of a variety of Faith Leaders), participate in decision making and implementation of different projects as well as contribute to/maintain the SEEIFA website.
